

Sharing the love of Christ with the people of Haiti through compassionate health care, spiritual ministry and training for service, all for Him

We seek out people in Haiti that have not been touched, no matter how remote they are, and care for them. We began in response to reports of unique diseases coming out of the remote mountains in the southwest of Haiti. We have continued to branch out to care for the people in these regions. We staff clinics who see thousands of Haitians per week. We help train local pastors in spiritual truth to build into their congregations. We treat iodine deficiency, a condition causing severe mental retardation in newborns.

**Aid for Haiti** is a group of believers brought together for the task of making the love of Christ known to the Haitian people. We have seen needless physical suffering and spiritual bondage and have been forever touched by the people of Haiti. We are pastors, medical doctors, teachers, academic researchers, builders, mechanics, missionaries, young, old, Haitians and Americans. Most of all, we are Christians who have a passion burning in our hearts to touch the lives of the Haitian people with the same life changing message of Hope that we carry in our hearts.

After the earthquake in Haiti we sent a emergency medical team into Haiti to minister to the people who rely on us for medical care. While there, we found a city of 150,000 people near the epicenter that was not receiving any aid at all. The need here was as large as anywhere else in Haiti, the only

difference was there was not an airport or good roads to bring supplies in easily. We have since become the main medical care for this city.

We strive to go where others do not, off the well beaten track, into harder to reach areas. Whether it be spiritual or physical, we strive to follow God to whatever need exists in Haiti. We meet the people where they are. Not just on the road near the airport, not just at the end of the road, but also those at the end of the footpath into areas few Americans have ever been. It just takes a willing heart to seek them out. We will continue to do this as long as God allows. Please help us in our ministry to aid the people of Haiti.
