

What we Do:

Aid for Haiti seeks out people in Haiti that have not been touched, no matter how remote they are, and cares for them. We began in response to reports of unique diseases coming out of the remote mountains in the southwest of Haiti. We have continued to branch out to care for the people in remote regions. Here, we staff and supply mobile medical facilities who see thousands of Haitians per week. We strive to go where no others go, well off the paved road, off the well

beaten track, into harder to reach areas. We desire to follow God into whatever need exists in Haiti. We meet the people where they are. Not just on the road near the airport, not just at the end of the road, but also those at the end of the footpath into areas few Americans have ever been. It just takes a

willing heart to seek them out.

Our Vision:

The vision of AFH is summed up by Matthew 9:35: Jesus was going through all the cities and villages, **teaching** in their synagogues, **proclaiming the gospel**, and **healing** every kind of sickness. We seek to evangelize, disciple and empower the church of Haiti and reach the unreached in Haiti.

We are so grateful for your interest in working with Aid for Haiti through our remote medical ministry. This ministry provides a unique way to reach the unreached remote villages throughout the country of Haiti. On behalf of all the pastors, patients, and believers across Haiti, we thank you with all sincerity and affection. May God Bless you richly as you serve him faithfully.

Reach the Unreached

When did we see you a stranger and invite you in, or needing clothes and clothe you? When did we see you sick or in prison and go to visit you?'

The King will reply, 'I tell you the truth, whatever you did for one of the least of these brothers of mine, you did for me.'

-Matthew 25:38-40

Aid for Haiti Remote medical ministry exists to reach out into the most untouched and needy areas in Haiti. Through contacts in the local church we have developed a network of unreached areas we minister to regularly. We strive to bring high quality medical care into areas most other organizations refuse to go in an effort to minister to those who would otherwise never see care in their lifetime.

Would you, your group or church like to help us in reaching Haiti? Please pray about how God could use you to help effect these needy, remote people throughout Haiti. There are opportunities to sponsor remote medical clinics and help build remote clinics. In addition, there are opportunities to help directly work in medical clinics. **Please contact us at: contact@aidforhaiti.org** to find out more.

Imagine you are on a medical team in Haiti when you examine the 4-year-old, you discover he is indeed seriously ill. In fact, he is dying. What started out as vomiting and diarrhea has now turned into serious dehydration and shock. You work as fast as you can to provide the best care possible, although realizing it is far from the advantages of the

Imagine you are in another village, during your last day of clinic. You are surprised when the patient in front of you is someone you saw two days ago. You ask her why she has returned to the clinic only to find yourself amazed at her reply. "I want to have Jesus as my Savior", she states. She said the care and medicines you gave her helped her feel better, and that maybe what we said about Jesus being able to help her with her sin was also true! As these stories illustrate, we continue to watch the Lord perform great physical and spiritual miracles in Haiti through our opportunity to serve in medicine.

pediatric intensive care unit back in the United States. You gather some of the team around you and pray with the parents for the child. God intervenes, and the boy walks out of the clinic with his parents that evening in good health.

Jesus was going through all the cities and villages, teaching in their synagogues, proclaiming the gospel, and healing every kind of sickness. - Matthew 9:35
